

Quality Improvement Partnership Opportunity

Cultivating Healthy Communities:

Your Clinic's Role

June 4, 2010

Division of Health Promotion & Chronic Disease

Mission: To make health the norm

Who We Are

WV Bureau for Public Health

Office of Community Health Systems and Health Promotion

**Division of
Health Promotion
and Chronic Disease**

**Division of
Tobacco Prevention**

**Division of
Primary Care**

**Division of
Rural Health
and Recruitment**

**Division of
Local Health**

Goal: Improve health outcomes for West Virginians with Chronic Disease

- **Direct resources to implement evidence-based models of care within health systems**
- **DHP&CD very appreciative of the great work accomplished through Community Health Centers and Free Clinics**
- **You serve the people most in need**
- **DHP&CD wants to help you make your job easier**

**Department of Health Promotion and Chronic Disease
Funding Source**

Centers for Disease Control and Prevention

Asthma

Diabetes

**Cardiovascular
Health**

WV Office of Health Services Research

Goal: Improve health outcomes for West Virginians with chronic disease.

Community Health Centers

Free Clinics

Other Health Settings

Division of Health Promotion & Chronic Disease

WE DON'T...

- **monitor your work**
- **regulate or penalize**
- **provide funding directly to your clinics**
- **provide funds for direct patient care**
- **have any regulatory functions**

Office of Health Services Research

- **Longstanding Division of Health Promotion & Chronic Disease partner**
- **Supported by DHP&CD to help you meet the changing needs of health care for WV**
- **They have worked hard to enhance WV's capacity to address the ever changing health care climate today**
- **Adopt technology to help you review your data and develop processes to improve quality of care**
- **We are all working to improve health outcomes for WV**

A NEW DAY

- **Health Reform**
- **Meaningful Use**
- **Medical Home**
- **Technology advances and requirements**
- **Accountability to our funders**

Quality Improvement Partnership Opportunity

- **We want to work through OHSR as partners to help you in two specific areas:**
 - **Data management and utility**
 - **Education & technical assistance in implementing evidence -based guidelines for care**
- **An assessment of your needs will be made to help us know how to direct our resources and technical assistance**
- **Goal: to improve health outcomes for persons with chronic disease**
- **Please sign on as a partner in developing a program that all community health centers and free clinics could use!**

What's in it for you?

- **Improved health outcomes for your patients with chronic disease**
- **Technical one on one assistance on:**
 - generating health outcomes data
 - interpretation of data
 - utilizing data to drive goals for care
 - using data to evaluate outcomes of protocols set
 - assessment of the process of improving health outcomes
 - education modules for staff training
 - implementation of self management initiatives
- **Funded by the DHP&CD**

What's in it for us?

- **Improved health outcomes for persons with chronic disease**
- **With your input we design resources customized to fit your needs**
- **We fund the resources for your use**
- **We need to know if the technical assistance services work for you in improving health outcomes**
- **We justify our funds to help you by showing health outcomes**
- **A potential statewide surveillance system for chronic diseases**
